# your collection of data representations

- Find your data representation(s) on Padlet.
- Describe what is shown and why you picked it.
- Discuss the data representation among each other.
- Add comments to the representations on Padlet, documenting key points of your discussion.

- Guiding questions
- What data is represented? Or: what data could be represented?
- What makes the representation a data representation?
- What is the context of the data representation? Who uses it? How is it used?
- What are the strengths and limitations of the data representation?

your collection of data representations [20min]
